Dear Lib -

Seems to be getting harder all the time for me to write.

Clayton is improving very slowly. Walks around in the house - and onto the porch on sunny days. Next sunny day he is to be taken for a short car ride. I suppose sometimes he seems discouraged - Clara notices at times he is crying. He told dad the other day that maybe he should rent the office and packing horse to some one. Cannot carry on a conversation. Starts to say something and forgets.

Dee and Beulah come to see us quite often. Dee says he feels well, but he cannot speak plainly. Says his tongue feels too big.

Marion's 4th child - a girl - was born on April 20. Owing to existing conditions I am sorry she had to have this baby, but no use to worry.

Alpha spent most of the winter at Seattle with one of her nurse girls. They have always been pals.

yes I have heard that Mr Naylor first took his claim farther up Gales creek, but I think not much farther.

Alph said she heard grandpa (Alvin) say that he (papa) could have taken the Buxton claim but preferred the one he took on Green Hill road.

About grandpa Orus, you know he wanted to grow wheat. Upland is better for wheat. Lower land near the streams better for grazing and oats - horse feed. Grandpa didnt want a stock farm - but a wheat farm. I dare say that as early as possible ~~he~~ in the Spring of 44 he was out plowing the ground.

Geigers lowlands may have still been under water. Of course Geigers land wasnt all low. but I remember the Emeries (south of Cornelius) and Geigers were bothered with high water. Did high water bother Orus in Mo. ? I shouldnt wonder if it did.

Addis Gilliam said her grandpa Columbia. He wouldnt have it. Took his claim on north slope of Mt Tabor. High + dry. Said his people had been bothered too much with floods in the middle west.

Alph says Nell has given up her work. Plans to sell her property and buy a motell having several cottages to rent. Will cater mostly to old people. Hope your back is now O.K. I dont know you got hurt.

with love - Mary
