 e in the regular classes, pur-
 courses leading to a degree.
 among those enrolled in the
 lemy are many special students
 are taking one or more College
 ies. These, by the methods of
 llment adopted in some institu-
 s, would be added to the college
 ber.

former staff of this paper, while
 ming to represent the students
 Pacific University, entered into
 scussion of the saloon question
 Forest Grove. The present staff
 e no desire to enter into such a
 scussion, even if they were com-
 ent to do so, but some of our
 ends may have been misled in re-
 rd to the prevailing sentiment
 re, by the article mentioned. The
 atiments of this school and its
 porters will not tolerate the
 uor business in any shape or

form in Forest Grove, and so far
 from allowing an open saloon, the
 citizens are engaged in an active
 campaign against the illicit sale of
 intoxicants under the guise of the
 drug business. Two large mass-
 meetings have been held within the
 last two months and a Law and Or-
 der League formed for the purpose
 of stamping out the least signs of
 the traffic in our town. The first
 man who defied the law after be-
 ing warned by the citizens, was
 promptly arrested and fined. The
 friends of the college realize the
 vital importance to the institution
 of the preservation of the purity of

this town, and all the better ele-
 ment are united in the work.

As a result of this agitation the
 town is practically free from the
 evils of the liquor traffic and the
 citizens are determined that this
 state of affairs shall continue.

We hope the present enthusiasm
 about athletics will hold over to the
 spring term.

All copy for the next issue of the
 INDEX must be handed in by the
 12th of December.

The athletic notes for this month
 were written up by W. T. Fletcher.

Naught but a spirit, did you say?
 But that's been "spirited" away.
 An emblem of our college yell,
 A sign that all with us is well
 In the realm of knowledge.

And now the naughty deed is done;
 They tho't it just a lark for fun,
 No more will incense from it rise,
 In darknes now it grieves and sighs,
 For some companionship.

Will not our plea enlist some heart?
 Will no one come to take our part?
 Must we, aye, for our spirit sigh?
 Some one will surely help us try
 To find that Spirit.

(BROWNING.)
