SUBJECT:

1984

It is that time again. Please list major and minor accomplishments for this administration during 1984 with a short narrative for each. These should all be on my desk by February 1, 1985.

As soon as these are complete, I am asking Jeff Lewis and Barb Carey to compile all accomplishments since 1979 in a well organized and readable document by subject matter. I know each of us will cooperate to achieve the end result of a complete and outstanding document to close out this administration in 1987.
