

## THE BOXER FUND

The Boxer Fund is a student-organized, student-run volunteer effort based on Pacific's needs and its future opportunities. Funds received through the effort will be used prudently and creatively to enrich life on the Pacific campus.

No one knows better than you what is needed on campus. We emphasize participation because your gift, in any amount, does make a difference! We need your help!

### You are the Key

You have probably heard it said that the large gifts for buildings and professorships do the most to improve the University. But take a closer look. It is the great number of gifts of \$50 or less that helped Pacific do so much for you. Did you realize that:

1. Your tuition pays less than 70% of the cost of your education. Much of the rest takes the form of private gifts.
2. Foundations, corporations, and individuals considering large gifts are more likely to support Pacific if substantial numbers of alumni and students make gifts. After all, a broad base of support means a healthy institution.
3. About 80% of all gifts last year were less than \$100.

### The Years Ahead

Look over your time at Pacific, and think about what means the most to you. Chances are that many of your favorite activities are made possible through other people's gifts. Your gift will continue to make things possible for others.

Pacific appreciates a gift in any amount. Every little bit helps!

### Purpose, 1981-1982

The first project of the Boxer Fund is to raise funds to recast a Boxer mascot. We ask you to think about your gift. What you give is your decision, but please be as generous as possible. There is no limit to how far we can go.
