

Homecoming October 2001

The following was reported to me as factual by a member of the Library staff who spoke directly with the individual making the claim:

According to Homecoming visitor, PU grad, Boxer was held in the garage of Hillsboro's Illegard Motors between 1964 and 1968 when a member of that family attended the University.

Additionally, an anonymous individual attending the 2001 Homecoming left a written message that stated, "Manfred White, a PU alum, has the original Boxer."
