Dear Vic,

It was good to be with you yesterday. I think we're finally beginning to make the proper impression on the University, largely due to your insistence that they're missing a great opportunity to capture the stewardship of an important piece of Oregon history. We may not be able to do it even with their enthusiastic support in these cash-strapped times, but we sure couldn't do it without.

I'm enclosing my card in hopes that you can come by and give me your impression of my motley rug collection, and especially this Nain. I guess every rug lover is self-taught, so the chance to get an expert's opinion is always a privilege and an educational experience.

I expect to be around most of the month of May, and am in my office most days from about 9 AM until after 5, not counting an hour or two mid-day. If you have a free time **let me know at 503-294-4485, or Lwyss@aol.com.**

Regards,

Loren Wyss
